Notice to Proceed was issued to Schier Construction Company, Inc. on August 23, 2010. To date, 28 submittals have been received. Five submittals are currently being reviewed. Last month, Brown & Gay provided ST with a list of personnel that the contractor, its subcontractors, and the inspection companies may have onsite during construction.

A pay estimate has not been received from Schier Construction.

Sanitary Sewer Rehabilitation, Phase IV:

A pay estimate was not received from Insituform Technologies this month. The contractor has completed the CIPP and pipe busting and is currently working on several miscellaneous items before completion of construction.

Atascocita Joint Operations Board ("AJOB"):

Brown & Gay continues to maintain a compilation of the ESFC for each district, total ESFC, average daily wastewater flows, and rainfall information. The current compilation through September 2010 indicates an average daily flow of 4.65 mgd or 282 gpd/ESFC. Rainfall for the month was 6.5 inches. The summary has been provided to Ms. Wynn for her use in the District's newsletters.

To Brown & Gay's knowledge, there have been no recent odor complaints from residents in the area.

The start-up of the lift station conveyor ("muffin monster") equipment was conducted on September 28, 2010. Punch list items noted at that time have been addressed. Some minor leaks that have occurred since startup are being repaired. Brown & Gay is also working with the equipment manufacturer to add sheet metal on the upper trough to more effectively direct the solids into the conveyor. Pay Estimate No. One from R&B Group, Inc. in the amount of \$137,700 was approved for payment. Retainage totaling \$15,300 was withheld until all remaining items are addressed.

TXU Energy provides energy-efficiency rebates to their customers that retrofit to accepted and proven energy-efficient technologies. Brown & Gay identified the Variable Frequency Drives installed on the lift station pumps as the most obvious energy-efficient project eligible for TXU's energy efficiency rebate. Brown & Gay submitted the rebate form and backup documentation to TXU on October 4, 2010. TXU informed Brown & Gay that a check for \$12,500 will be sent to Roland Fry & Co. by the end of October 2010.

Upon motion by Director House, seconded by Director Holder, after full discussion and the question being put to the Board, the Board voted unanimously to approve the Engineer's Report and to approve and authorize payment of Pay Estimate No. Three from Alsay, Inc. in the amount of \$750.00 in connection with the Water Well No. One (Rebawood) rehabilitation.

Brown & gay has requested written confirmation of this and the proposed relocation date. The 1-inch unidentified cable is still under research by the contractor.

This estimate includes payment for boring and jacking 55 LF of 36-inch RCP, removal of a 24-inch pipe, and relocation of the wooden fence along the east side of the outfall channel drainage easement. Ten percent retainage (\$11,719.56) has been withheld

from payments to date. The delay was not due to the contractor's delay in the timing of its request. Brown & Gay was waiting for verification of payment received by a supplier before approving the pay request.

Upon motion by Director House, seconded by Director Holder, after full discussion and the question being put to the Board, the Board voted unanimously to approve and authorize payment of Pay Estimate No. Two from C.E. Barker, Ltd. in the amount of \$26,919.59 in connection with the Diversion Swale and Berm for Kings River Estates, Section Four.

Drainage Improvements for Kings River Estates, Section Four:
