Mr. Jones reported there are 89 accounts on the delinquent list of which 4 were terminated prior to the storm for non-payment. He requested authorization to send four uncollectible accounts

Mr. Jones reported that Lift Station Nos. 2 and 3 were completely under water and they are still investigating the damages. He reported that the motor at Water Well No. 2 was irreparable and noted this is the second time this has happened in five years due to weather. Mr. Jones confirmed that claims have been filed with the insurance company and FEMA. He discussed the costs to repair or replace the motor. It was the consensus of the Board to replace the motor for a cost of \$38,587.00. A copy of the proposal from Burke Mechanical is attached at *Exhibit H-1*.

Upon motion by Director Whitaker, seconded by Director Mielke, after full discussion and the question being put to the Board, the Board voted unanimously to approve the Operations Report, to defer turn offs and delinquency fees for one month due to the hurricane, and to submit the uncollectible accounts to collections.

8. **Engineer's Report.** Mr. Froehlich presented to and reviewed with the Board the Engineer's Report, a copy of which is attached hereto as *Exhibit I*.

Mr. Froehlich reported the survey and drainage analysis on the golf course drainage channel and culverts are complete. He said that BGE is producing exhibits and preliminary cost estimates and will contact the Board to schedule a special meeting to further discuss pricing, design for water feature and crossings..

Mr. Froehlich updated the Board on the drainage issues along a storm sewer outfall pipe between lots in Kings River Estates, Section 5. He reported that the Operator completed cleaning and televising the line and noted that several cubic yards of sand and silt were vacuumed out of the line in addition to what was jetted out. He discussed several cracks and defective joints that appear to correlate relatively closely to the location of sinkholes at ground level. He said that BGE will contact contractors to discuss options for addressing the issues.

13. **Approve event notice regarding Hurricane Harvey.** Ms. Ellison reported that immediately after the hurricane, investors in water district bonds were very concerned about the financial impact on water districts, and some districts were filing notices concerning any impact the hurricane had on their facilities or tax base. She said that much of the concern has since subsided and given the extremely small amount of debt the District has outstanding, there is no recommendation to file a voluntary notice.

14. **Nomination of Harris County Appraisal District director; and Other Director and consultant reports.** Ms. Ellison reported that the District may nominate someone to the Harris County Appraisal District Board of Directors to represent the water districts within Harris County. She noted that Glenn Peters is the incumbent. The Board took no action on this matter.
